DETAILED ACTION

This office action is in response to applicants' communication filed on 12/27/07.

Claims 28-51 are pending in this application. Claims 1-27 have been canceled.

Rejection of claims 1-4, and 8-22 is moot in view of the newly added claims.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 36-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 36-40 recites the limitation "R2" in line1, and depends from claim 28.

However, in claim 28, there is no R2 . There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 28-31, 35, 44-47 and 49 are rejected under 35 U.S.C. 102(b) as being anticipated by Rosevear et al.

Rosevear et al, page 342, compounds C and D anticipate instant compounds when in the instant claims R4 and R5 together form phthalamide group, R3 is methyl, R6 is H, and R1 is chloro. R1 can also be methyl, see the definition of R. Also, note that inasmuch as compound is in water, pharmaceutical composition is anticipated.

Applicants' arguments were fully considered and were not found convincing. Applicants allege that the reference is not disclosing any therapeutic utility of the compounds as against therapeutic utility disclosed in herein. The examiner would like to point out that to anticipate a compound, the utility is not required. Inasmuch as the compounds are disclosed, they anticipate the claimed compounds.

5. Claims 32-34, 41-43, 50-51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Note that applicants need to delete "ameliorating" from the method claims.

6. Claim 48 is free of art and is allowable.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1621

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
